Subject: RE: ATP settlement with SRC for review/concurrence

Thanks Kris. I have no comments on the document. Has Dean concurred? I'm guessing that Beth would like to know whether he has or hasn't. Then, let's send to Beth asking for her review, and a description of the process of review and when each party will sign.

Do we have a timetable to get this done? Also, what's the status of the KAIC AOC?

Subject: ATP settlement with SRC for review/concurrence

Hi Wally,

Attached is the ATP settlement package with Spokane Recycling for your review and comment. The language of the settlement is based on the model, and has been negotiated with Spokane Recycling. Please let me know if you have any edits or concerns. Our preference is to keep editing to a minimum, so we don't have to go back to the negotiating table. However if there are any major issues that you think we should renegotiate, please let me know. Also, this package is missing 1 document, Appendix D to the settlement. That appendix lists the encumbrances on the property. DOJ and I are working on finalizing that document now, and we believe there are no encumbrances to list in that appendix so it will just have a sentence or two explaining that. If you prefer to wait for the appendix, that's fine, just let me know.

Thanks,
Kris
